

We provide expert contracting services in:

- tree survey and inspection
- tree surgery - pruning, crown reduction, crown lift, sectional felling etc.
- stump grinding
- wood chipping

- woodland survey and mapping
- tree and timber measurement

- woodland thinning, felling and coppicing
- formative pruning

- low impact harvesting

- fuelwood processing and firewood supply
- on-site sawmilling

- tree planting and aftercare

- garden and park tree care
- orchard establishment, pruning and restoration
- traditional hedge laying and restoration

We are equipped for low impact, small-scale woodland management and harvesting operations using a compact and versatile Alpine tractor fitted with a timber winch. Ideally suited to sites with restricted access and difficult terrain.

We have a small team of expert contractors who combine practical and site management skills and experience

Our consulting and contracting activities are covered by Public Liability, Professional Indemnity and Employers Liability insurance as appropriate.

Practical tree and woodland work
